Re: *Teligent's IntraLATA Toll Dialing Parity Plan, as Required by the Recent
Federal Communications Order, CC Docket No. 96-98, NSD-L-98-121*

Dear Secretary Salas:

Enclosed herewith for filing, please find Teligent, Inc.'s ("Teligent"), intraLATA toll dialing parity plans that have not yet been approved by the corresponding state utility commissions, pursuant to the Federal Communications Commission's ("Commission") recent order.¹ That order required all carriers to file with each state commission a copy of its intraLATA toll dialing parity plan by April 22, 1999, to be approved by June 22, 1999. The following attached plans have not yet been approved and require Commission approval:

Attachment A – Alabama
Attachment B – California
Attachment C – Colorado
Attachment D – Florida
Attachment E – Hawaii
Attachment F – Illinois
Attachment G – Kansas
Attachment H – Massachusetts
Attachment I – Minnesota
Attachment J – Mississippi
Attachment K – Missouri

Attachment L – Nebraska
Attachment M – New Mexico
Attachment N – New York
Attachment O – North Carolina
Attachment P – Ohio
Attachment Q – Oklahoma
Attachment R – Oregon
Attachment S – South Carolina
Attachment T – Utah
Attachment V – Virginia

Should any questions arise regarding this filing, please do not hesitate to contact the undersigned at 703.762.5430 or carly.tolchin@teligent.com.

Sincerely,

Carly B. Tolchin
Senior Regulatory Analyst

*Re: Teligent, Inc.'s IntraLATA Toll Dialing Parity Plan, as Required by the
Recent Federal Communications Commission Order*

Dear Secretary Thomas:

Enclosed herewith for filing, please find Teligent, Inc.'s ("Teligent") intraLATA toll dialing parity plan, pursuant to the Federal Communications Commission's recent order.¹ That order required all carriers to file with each state commission a copy of its intraLATA toll dialing parity plan by April 22, 1999.

An additional copy of this filing is enclosed. We ask that it be date-stamped and returned in the envelope provided. Should any questions arise regarding this filing, please do not hesitate to contact the undersigned at (703) 762-5430.

Respectfully submitted,

Carly Tolchin

¹ In the Matter of the Implementation of the Local Competition Provisions of the Telecommunications Act of 1996, *Order*, CC Docket No. 96-98, NSD File No. 98-121 [rel. March 23, 1999].

TELIGENT, INC.
DIALING PARITY PLAN

I. OBJECTIVE/PURPOSE

In compliance with the Federal Communications Commission's recent IntraLATA toll dialing parity order,¹ Teligent, Inc. ("Teligent") files its plan for implementing intraLATA equal access in areas of the State in which it is authorized to provide service. Under the plan, Teligent's customers will be able to choose an interexchange carrier ("IXC") from a list of IXCs that are Teligent access customers. The customers' intraLATA toll calls will then be routed to the chosen IXC automatically, without the use of access codes.

II. IMPLEMENTATION SCHEDULE

Prior to launching service in a state, Teligent notifies as many IXCs as possible regarding its planned service launch and files an access services tariff, setting forth the rates, terms and conditions of its exchange access service offerings.

III. CARRIER SELECTION PROCEDURES

Upon launch of its services, Teligent implements a 2-PIC carrier selection methodology within the State. With the 2-PIC methodology, customers are able to presubscribe to one IXC, including Teligent, for interLATA toll calls and to presubscribe to the same or a different IXC for intraLATA toll calls. Customers are informed of the opportunity to choose both an intraLATA and interLATA PIC. At the customer's request, Teligent will provide a list of IXCs that are available for PIC selection. That list will be presented in a competitively neutral manner.

Customers who do not affirmatively choose an intraLATA toll carrier will be identified within Teligent's system as "no-PIC." Until making an affirmative intraLATA toll PIC selection, these customers will be required to dial an access code in order to place intraLATA toll calls.

¹ In the Matter of the Implementation of the Local Competition Provisions of the Telecommunications Act of 1996, Order, CC Docket No. 96-98, NSD File No. 98-121 [rel. March 23, 1999].

IV. CARRIER NOTIFICATION

Prior to launching service in a state, Teligent contacts as many IXC's as possible regarding the opportunity to provide toll service to Teligent customers. Interested carriers are asked to submit to Teligent an Access Service Request ("ASR") form for each switch to which it desires access. Teligent lists its switches available for exchange access service in either NECA Tariff No. 4 or Teligent's Tariff FCC No. 3. Once Teligent receives and processes an IXC's ASR, that carrier is added to the list of IXC's available for customer selection.

TELIGENT, INC.
DIALING PARITY PLAN

I. OBJECTIVE/PURPOSE

In compliance with the Federal Communications Commission's recent intraLATA toll dialing parity order,¹ Teligent, Inc. ("Teligent") files its plan for implementing intraLATA equal access in areas of the State in which it is authorized to provide service. Under the plan, Teligent's customers choose an interexchange carrier ("IXC") from a list of IXCs that are Teligent access customers. The customers' intraLATA toll calls are then routed to the chosen IXC automatically, without the use of access codes.

II. IMPLEMENTATION SCHEDULE

Teligent has already launched service in the State, in accordance with the provisions set forth in this plan.

III. CARRIER SELECTION PROCEDURES

Teligent has implemented a full 2-PIC carrier selection methodology within the State. With the full 2-PIC methodology, Teligent customers are able to presubscribe to one IXC, including Teligent, for interLATA toll calls and to presubscribe to the same or a different IXC for intraLATA toll calls. Teligent has endeavored to contact as many IXCs as possible regarding the opportunity to provide toll service to Teligent customers.

Customers are informed of the opportunity to choose both an intraLATA toll carrier PIC and an interLATA PIC. At the customer's request, Teligent provides a list of IXCs that are available for PIC selection. That list is presented in a competitively neutral manner.

Customers who do not choose an intraLATA toll carrier are identified within Teligent's system as "no-PIC." ~~Until making an affirmative intraLATA toll PIC~~ selection, these customers must dial an access code in order to place intraLATA toll calls

¹ In the Matter of the Implementation of the Local Competition Provisions of the Telecommunications Act of 1996, Order, CC Docket No. 96-98, NSD File No. 98-121 [rel. March 23, 1999].

IV. CARRIER NOTIFICATION

Prior to launching service in the State, Teligent contacted as many IXC's as possible regarding the opportunity to provide toll service to Teligent customers. In addition, any IXC that wishes to serve Teligent customers are asked to submit to Teligent an Access Service Request ("ASR") form for each switch to which it desires access. If a customer requests access to an IXC not on the list, Teligent will contact the IXC on the customer's behalf. IXC's are informed that the Teligent switches available for exchange access service are identified in either NECA Tariff No. 4 or Teligent's Tariff FCC No. 3. Once Teligent receives and processes an IXC's ASR, that carrier is added to the list of IXC's available for customer selection.

PLAN FOR PROVIDING TOLL DIALING PARITY**

CHIEF CLERK'S OFFICE

JUN 4 10 25 AM '99

ILLINOIS
COMMERCE COMMISSION

Teligent, Inc. ("Teligent"), hereby amends the captioned Petition for Approval of Teligent, Inc.'s Plan for Providing IntraLATA Toll Dialing Parity ("Petition"), filed with the Commission on April 22, 1999, and revised on May 12, 1999. Teligent submitted the captioned Petition to the Commission pursuant to the terms of the Federal Communications Commission's March 23, 1999 Order in CC Docket No. 96-98.¹

I. INTRODUCTION

Teligent is a certified Competitive Local Exchange Carrier in the state of Illinois, and it has already implemented a full 2-PIC (Primary Interexchange Carrier) selection process under which all Teligent customers may designate a carrier for their intraLATA toll calls. Under Teligent's plan, customers may choose an interexchange carrier ("IXC") from a list of IXCs that are Teligent access customers. The customers' intraLATA toll calls are then routed to the chosen IXC automatically, without the use of access codes.

¹ Implementation of the Local Competition Provisions of the Telecommunications Act of 1996, Order, CC Docket No. 96-98, FCC 99-54 (rel. March 23, 1999) ("FCC Toll Dialing Parity Order").

II. IMPLEMENTATION SCHEDULE

The provisions set forth in this plan have been implemented and available in Illinois since Teligent launched service in the State on September 1, 1998. Teligent will revise its tariff within thirty days of the date on which the plan is approved in accordance with the Commission's rules.

III. CARRIER SELECTION PROCEDURES

As noted above, Teligent has implemented a full 2-PIC carrier selection methodology within Illinois. Under the full 2-PIC methodology, Teligent customers are able to presubscribe to one IXC, including Teligent, for interLATA toll calls and to presubscribe to the same or a different IXC for intraLATA toll calls. New Teligent customers are informed of the opportunity to choose both an intraLATA IXC and an interLATA IXC.

Teligent has endeavored to contact as many IXCs as possible regarding the opportunity to provide toll service to Teligent customers. At the customer's request, Teligent provides a list of IXCs that are available for PIC selection. That list is presented in a competitively neutral manner.

There is no charge to new Teligent customers for their initial intraLATA and interLATA IXC selections. Moreover, there will be no charge to existing Teligent customers for intraLATA PIC-changes under this plan for a period of 90 days upon Commission approval. Otherwise, Teligent customers will be charged \$5.00 per line for each intraLATA PIC-change.

Teligent customers who do not choose an intraLATA toll carrier are identified within Teligent's system as "no-PIC." Until making an affirmative intraLATA toll PIC selection, these customers must dial an access code to place intraLATA toll calls.
